PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3 years of experience developing scalable web applications using Angular, C#, .NET Framework, and Oracle databases. Proven track record in building responsive user interfaces, RESTful APIs, and optimized database solutions. Expertise in Agile development methodologies, version control systems, and cross-functional collaboration. Strong focus on clean code architecture, performance optimization, and delivering high-quality software solutions that meet business requirements.

CORE COMPETENCIES

- **PROGRAMMING LANGUAGES:** C#, JavaScript, TypeScript, SQL, HTML5, CSS3, Dart
- **FRAMEWORKS & TECHNOLOGIES:** .NET Framework, ASP.NET Core, Angular 13, Angular 18, Entity Framework, Flutter
- **FRONTEND DEVELOPMENT:** Angular CLI, HTML5, CSS3, SCSS, Bootstrap, Responsive Design, Cross-browser Compatibility
- **BACKEND DEVELOPMENT:** RESTful APIs, Web Services, API Integration, Micro services Architecture
- **DATABASE TECHNOLOGIES:** Oracle Database, SQL Server, Stored Procedures, Functions, Database Design
- **DEVELOPMENT TOOLS:** Visual Studio, Visual Studio Code, Toad for Oracle, Git, GitHub, TFS
- **METHODOLOGIES:** Agile, Scrum, SDLC, Test-Driven Development, Code Review, CI/CD
- **ADDITIONAL SKILLS:** UI/UX Design, Performance Optimization, Debugging, Technical Documentation

PROFESSIONAL EXPERIENCE

ASSOCIATE SOFTWARE DEVELOPER

Greater Than Educational Technologies | Hyderabad, Telangana
June 2023 – Present

PROJECT: MyNspira Portal - Human Resource Management System (HRMS)

TECHNOLOGIES: C#, .NET Framework, Angular 18, Oracle Database, Bootstrap, HTML5, CSS3, TypeScript

PROJECT OVERVIEW

Lead developer for MyNspira, a comprehensive cloud-based HRMS platform serving Narayana Group of

Educational Institutions. The system automates core HR functions including employee onboarding, attendance management, leave processing, payroll integration, and employee self-service portals.

KEY RESPONSIBILITIES & ACHIEVEMENTS:

- **Frontend Development:** Developed responsive web interfaces using Angular 18 and Angular CLI, implementing component-based architecture with custom directives, services, and reactive forms validation
- **Backend Development:** Architected scalable backend solutions using C# and ASP.NET Core, designing and implementing RESTful APIs for seamless frontend-backend integration
- **Database Management:** Created and optimized Oracle database schemas, stored procedures, functions, and packages to improve data retrieval performance by 40%
- **API Development:** Built secure RESTful web services and APIs enabling real-time data synchronization between frontend applications and backend systems
- **Code Quality:** Maintained high code quality standards through Git version control, code reviews, and following industry best practices for scalable software architecture
- **Cross-functional Collaboration:** Worked closely with business analysts, UI/UX designers, and QA teams to gather requirements, develop technical solutions, and resolve complex technical challenges
- **Testing & Deployment:** Implemented comprehensive testing strategies and deployment procedures ensuring 99.9% application uptime and security compliance
- **Agile Development:** Actively participated in Agile/Scrum ceremonies including daily standups, sprint planning, and retrospectives, consistently delivering features on schedule
- **Performance Optimization:** Optimized application performance through efficient database queries, caching strategies, and frontend optimization techniques

EDUCATION

Bachelor of Technology in Computer Science and Engineering

MALLA REDDY INSTITUTE OF ENGINEERING AND TECHNOLOGY | 2022

LOCATION: Hyderabad, Telangana

RELEVANT COURSEWORK: Database Management Systems, Software Engineering, Web Technologies, Object-Oriented Programming

KEY ACHIEVEMENTS

- Successfully delivered 15+ features within scheduled timelines using Agile methodology
- Improved code reusability by 50% through implementation of modular component architecture
- Achieved 99.9% application uptime through robust testing and deployment practices

LANGUAGES

- **ENGLISH:** Professional Working Proficiency

- **TELUGU:** Native Proficiency
- **HINDI:** Conversational Proficiency
